Attachment A – Te Aupōuri Amendments to PDP Schedule 3 Schedule of Sites and Areas of Significance to Māori

Note – The below provisions represent the relief sought by Te Aupōuri Commercial Development Ltd (Te Aupōuri) (s339) and recommended amendments to the provisions sought to the Proposed District Plan. Text with blue underline used for new text and ~~strikethrough~~ for deleted text.

For clarity, only sites of significance to Te Aupōuri where they have sought amendments are included in the table below. All others have been removed from the table.

Schedule 3 Schedule of Sites and Areas of Significance to Māori

Refer to chapter on Sites and Areas of Significance to Māori for the rules that apply to the taonga in this schedule.

The Council has a responsibility under the Act to recognise and provide for the relationship of Māori and their culture and traditions with their ancestral lands, water, sites, wāhi tapu, and other taonga. The Council must also have regard to kaitiakitanga, and shall take into account the principles of Te Tiriti o Waitangi / the Treaty of Waitangi.

The provisions in the Tangata Whenua section of this Plan provide an overview of the resource management issues of concern to tangata whenua. One method of protecting sites and areas of significance to Māori is to prepare an inventory of such sites and to restrict activities within such sites. Where there is an application to modify any site of cultural significance to Māori, the tangata whenua shall be considered an affected party.

The following schedule has been sourced in part from information in the Transitional District Plan. In addition, the Council has resourced a series of workshops. The result of these workshops has been the identification of specific sites, the identification of areas which contain unmarked sites, and the people and/or organisations to be contacted in response to any application for a resource consent. The information gathered at these workshops is held by Council and is available on request.

The sites were located on 1:50,000 topographic maps (MS260 series) by circles drawn around individual sites (where the centre point of the circle depicts the location of the site); or large circles/areas drawn around a number of unmarked or "silent" sites. The location of these sites or areas is by map reference, or in the case of information from the Transitional District Plan, by legal description. Revealing the location of the "silent" sites, including wāhi tapu, is a sensitive issue.

In the Transitional District Plan, this Schedule only listed those sites that:

- were on Māori land or on Department of Conservation estate; and/or
- were in the Transitional Plan; and/or
- are on general title land and there has been consultation with the affected landowner.

Where the column headed "Name & Description" contains a reference to "silent file", the Council has made an order pursuant to s42 of the Resource Management Act 1991 prohibiting or restricting the publication or communication of any information supplied to avoid serious offence to tikanga Māori or to avoid the disclosure of the location of wāhi tapu.

Where the column headed "Requesting party" lists a party, which may be an Iwi authority, hapū or landowner, this is not intending to identify who has mana whenua over the site and area of cultural significance.
