

Kurī Karere Doggo Digest

Doggo updates and registration info for 2025

Stormy start for 'best ever' pup

When Storm was found roaming with her brother in Kaitiāia, it was obvious to our Animal Management Team that her first three months had been a rough ride. Then our Adopt-a-dog scheme matched Storm with her perfect forever family! Storm has been the "best thing" for their family, says mum Jody. Storm enjoys daily walks,

enrichment trips to new areas, and playing with her 'fur buddies' Roxy and Max. Storm has a calming presence, is toy-motivated and easy to train thanks to her expert listening skills! Is there a Storm out there for you?

Before adoption
at 3 months old

After adoption
at 1 year old

Adopt a dog

- It pays to be kind — desexing, microchipping, vaccination, parvo tests and registration are ALL included in our adoption fee.
- To find out more about doggos wanting a forever home, go to: www.facebook.com/adoptadogFNDC
- We spread the love by adopting out across the country. So, send friends and whānau looking for a fur friend our way or to our Facebook page.

Microchipping magic

Do you know that all dogs must be microchipped within two months of their first registration? Microchipping increases your chances of finding your missing pooch and can reduce the time it might take.

Microchipping is a one-off event and is separate from dog registration.

A 15-digit unique microchip code identifies your dog through registration and the National Dog Database.

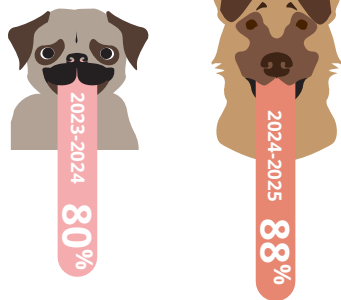

Failing to microchip a dog can result in a \$300 fine.

Dog walking areas
