30. March 2020

Lucklaw Farm  
690 Rangiputa Rd,  
Karikari  
Attn.: John & Andrea Sturgess

### **Tree felling**

The author has undertaken an archaeological site visit and survey of the property in Karikari on 23<sup>rd</sup> / 24<sup>th</sup> January 2020.

A number of archaeological sites were recorded previously on the property or on the coastal zone right next to the property.

The recorded sites were re-visited and a survey over the accessible areas of the property were undertaken (see Fig. 1). A number of the recorded sites could not be relocated and most of the recorded sites were further damaged since the records started. The damage has occurred on the sites along the beach by off road traffic.

The areas of the tree felling did not show any archaeological sites (see Fig. 2 to 4). Two previously recorded archaeological sites close to Area 1 and Area 4 could not be relocated and are possibly destroyed.

It is recommended to continue with the development as planned under an accidental discovery protocol.

Kind regards,  
Dr. Hans-Dieter Bader
