The specific provisions of the Plan that my submission relates to are:

(please provide details including the reference number of the specific provision you are submitting on)

KRT-P2 – power and telecoms

Confirm your position: Support Support In-part Oppose
(please tick relevant box)

My submission is:

(Include details and reasons for your position)

The policy is dictating how an urban dweller MUST receive their phone/telecommunications connectivity and power connectivity, and its wastewater, water and stormwater reticulation. There should be scope for alternatives. Telecommunications no longer must be in ground fibre or copper wire; power no longer must be conventional non-renewable means. Technology has moved on. If a site in this zone is large enough to sustainably cater for on-site wastewater then it should not be 'required' to connect up to a council service. If a property can sustainably provide for their own potable water supply, they should not be 'required' to connect and pay for a council service.

I seek the following decision from the Council:

(Give precise details. If seeking amendments, how would you like to see the provision amended?)

Amend KRTZ-P2 to read:

Encourage all subdivision leave a-f unchanged (except 'f' should read potable, not portable water); add sentence at the end;

And where it is proposed to rely on alternatives to the reticulated services outlined above, the alternative shall be capable of providing the same level of service as conventional reticulated services.
