The specific provisions of the Plan that my submission relates to are:

SUB-S1 Minimum allotment sizes – Rural Production Zone

Confirm your position: Support Support In-part Oppose
(please tick relevant box)

My submission is:

The new subdivision rules, requiring a minimum lot size of 8ha (without a Management Plan) will severely restrict the ability to create small rural lots in the rural production zone. The effects of this restriction include:

- *a reduction in vitality for rural communities,*
- *no longer allowing farmers to retire in their existing homes with a small area of land,*
- *the creation of 8ha blocks, which are too large for lifestyle blocks and too small to be productive,*
- *no longer allowing for the creation of appropriately sized and desirable lifestyle blocks,*
- *reduce the ability for rural landowners to provide small blocks for young family members to build on and enter the property market (this is contrary to Council policies in relation to affordable housing),*
- *reduced capacity for farmers to decrease their debt burdens by subdividing off small blocks of land that do not significantly add to the productivity of their farm. Where it is necessary to reduce debt by subdivision, subdividing off 8ha will diminish the productive capacity of the farm more than a smaller block.*

The reason given for this rule is to protect the productive potential of the rural area, in particular, highly productive land. However, the majority of land in the Far North District does not come under this category, and the PDP does not distinguish between highly productive land and less productive land when it comes to subdivision.

With Council struggling to provide urban amenities (sewerage, water supply and stormwater) and people wanting to live independent of these services in the rural areas without too much land to care for, it makes sense to allow small rural blocks.

It is correct to protect rural productive potential, but this can be achieved without imposing a total restriction on rural lifestyle properties.

I seek the following decision from the Council:

Previously blocks down to 4000sqm were allowed under the Operative District Plan. Perhaps the new District Plan could reconsider allotment sizes, perhaps with a limited number of allotments of a minimum of 8000sqm or 1ha, then 4ha generally after that. Smaller lot sizes should apply for properties (or parts thereof) that do not consist of highly productive land. This would give effect to Policy SUB-P8.

Perhaps there should be more focus on the size of the balance parcel – subdividing off 4ha to leave a 10ha balance parcel does not protect productivity, while subdividing 1ha off a 200ha block has next to no effect, especially if the smaller block consists of bush.

This would provide vitality in rural areas, opportunities for farmers to develop their land, relief for urban services, continued local jobs, lifestyle blocks for those that want them, and all while still protecting the productive capacity of the land.

This will also affect other related rules, such as:

- *RPROZ-R3 Residential activity*
- *SUB-R7 Management plan subdivision*

S569.001

The specific provisions of the Plan that my submission relates to are:

GRZ-R9 Residential activity (multi-unit development)

Confirm your position: Support Support In-part Oppose
(please tick relevant box)

My submission is:

Rule GRZ-R9 enacts the following policy: "GRZ-P3: Enable multi-unit developments within the General Residential zone, including terraced housing and apartments, where there is adequacy and capacity of available or programmed development infrastructure." The rule allows for up to 3 residential units to be placed on urban sections.

Rule GRZ-R9 does not take into consideration the capacity of existing infrastructure, namely water supply, stormwater and wastewater, as required under Policy GRZ-P3. These systems already appear to be at capacity in some areas, for example, wastewater and water supplies in Paihia and Taipa-Mangonui.

This rule could result in extra loadings on already straining infrastructure, which could result in discharges of untreated sewage to waterways or the sea, reductions in quality or shortages of drinking water, or exacerbated damage during stormwater events. These effects are already being seen in some of our communities, so it seems irresponsible to make them worse.

While the infilling does limit the need to extend infrastructure, this is better achieved through appropriate zoning.

I seek the following decision from the Council:

This rule should only be allowed in areas where all infrastructure has been upgraded and maintained to allow for the maximum development potential under this rule and subdivision rules.

These areas could be shown on one of the FNDC GIS Maps.

The specific provisions of the Plan that my submission relates to are:

Objectives IB-O1, SUB-O2

Policies IB-P1, SUB-P8

IB-R4 Indigenous vegetation clearance and any associated land disturbance outside a SNA.

SUB-R17 Subdivision of a site containing a scheduled SNA

Others associated with these provisions, where appropriate.

Confirm your position: Support Support In-part Oppose

My submission is:

After consultation with landowners, the FNDC withdrew the SNA maps from the PDP. Despite this clear opposition to the concept, the above provisions have retained the essence of the SNA mapping, but with the added expense to landowner to have to engage an ecologist to prove that the bush on their property is NOT an SNA. Under this method, ALL bush is subject to SNA rules unless the owner (at their own expense) can prove that it is not an SNA. Because the ratepayer-funded SNA mapping is no longer publicly available, these rules will now not only affect landowners who had push previously mapped as SNA in the 1990s, but also owners whose bush was NOT mapped as SNA.

Despite policy IB-P6(a,) which recommends Council's consideration of "assisting landowners with physical assessments by suitably qualified ecologists to determine whether an area is a SNA", any financial assistance will still be at ratepayer's expense, having already footed the bill for the original SNA mapping. In fact, none of the methods in policy IB-P6 have been given effect under the PDP.

Is the Council using these rules to get the ratepayers to submit to the SNA mapping??

S569.002

According to a quote from John Carter on the FNDC website, there has been "an increase from around 30 per cent when the district was last mapped for a similar purpose in the 1990s". This tells us that over the last 30 years, indigenous bush/forest has increased by some 30% **without much control by the Council**. This means that, overall, the rural landowners of the Far North have, of their own volition, increased, not decreased these areas. There are many examples of farmers and landowners fencing off and restoring wetlands, waterways and bush areas, and the Council are now creating rules in relation to these areas that create a disincentive for landowners to do this work, not an incentive.

So, by looking at historical performance and by the Council's own admittance, these "stick" methods are unnecessary to achieve the protection, enhancement and enhancement of SNAs. Therefore, why is Council's involvement necessary? Especially given the two following objectives which are not reflected in the PDP:

"IB-O4 The role of tangata whenua as kaitiaki and landowners as stewards in protecting and restoring significant natural areas and indigenous biodiversity is provided for.

IB-O5 Restoration and enhancement of indigenous biodiversity is promoted and enabled."

Then under SUB-P8 and SUB-R6 we start to see the protection of SNAs "in perpetuity" coming in. While previously covenants were done by consent notice and constituted "bush protection covenants", covenanting under the Reserves Act or QEII constitutes a loss of ownership in the former, and a loss of control in the latter. This is significantly more than a simple bush protection covenant. This is a loss of property or property rights.

SUB-R17 requires that a subdivision does not divide an SNA. This rule does not protect SNAs but just makes it easier for Council to commandeer them, since they only need to deal with one land owner.

I seek the following decision from the Council:

Acknowledge that the ratepayers have managed to enhance the SNA's in the District, and instead of forcing them to do this, facilitate and assist them in what they are already doing. By setting strict and harsh rules that deny landowners the right to remain as stewards to their land, you are in breach of your own policies IB-04&05.

Given that Council is required to undertake mapping and identification of SNA's under the Draft National Policy Statement for Indigenous Biodiversity, I suggest that the approach be modified. Under the Draft NPS, Section 8.2 (2)(a) Partnership, the Council has failed to do this by coercing landowners into Scheduling their SNAs, and as a result I hold the Council in breach of the Draft NPS.

Provide incentives, not disincentives, for landowners to enhance the natural biodiversity of their land. Provide support and resources for landowners. If you do not do this, you will accentuate the current issue you have with a severe lack of community support and compliance. Human nature means that in being MADE to do something, people will often resist doing something that they would otherwise have happily done.

If owners wish to protect their bush, the option of a simple simple bush protection covenant by consent notice should be available, not just the Reserves Act and QEII covenants.

Make the SNA mapping available publicly, even if it is not part of the PDP.

Delete SUB-R17as this does not protect SNAs.

The specific provisions of the Plan that my submission relates to are:

SUB-S8 Esplanades

S569.003
S569.004
S569.005
S569.006
S569.007

S569.008

My submission is:

Section 77 of the RMA 1991 allows Council to create a rule that allows for an esplanade strip, but the PDP only has allowance for esplanade reserves. In some instances, esplanade strips are more suitable, so this option should be available.

Council already has enough reserves around that they are unable to maintain, so by vesting the land in Council via an esplanade reserve removes it from the care and stewardship of the adjacent landowner. At least with esplanade strips there is a duty (or at least the opportunity) for the landowner to look after the area, since it is still included in his/her title.

I seek the following decision from the Council:

Include the option of creating an esplanade strip in this rule.

S569.009

The specific provisions of the Plan that my submission relates to are:

IB-P9 Require landowners to manage pets and pest species, including dogs, cats, possums, rats and mustelids, to avoid risks to threatened indigenous species, including avoiding the introduction of pets and pest species into kiwi present or high-density kiwi areas.

Confirm your position: Support Support In-part Oppose

My submission is:

DOC, who own the majority of Kiwi areas in the Far North, should be the first "landowner" to be "required" to do this under this rule. It is unreasonable to put this responsibility on all ratepayers in these zones, especially those adjacent to DOC lands which are usually (unless managed by community groups) a significant source of these pests.

Given that a lot of people carry out pest control of their own volition, and setting up pest control programmes in DOC areas is a very difficult and convoluted process, there are better ways to achieve the outcome of Kiwi protection than "making" landowners (except DOC, lets face it) carry out pest control.

I seek the following decision from the Council:

Remove the word "require" from this rule and replace it with "assist". If you want to leave the "require" word in there, then you will either have to enforce this with DOC or help facilitate community groups to easily set up trapping programmes on DOC land.

S569.010

The specific provisions of the Plan that my submission relates to are:

The whole PDP, in general.

Confirm your position: Support Support In-part Oppose

My submission is:

While I know that the Council is required by the government to give effect to higher policy documents, in essence they are also supposed to represent the needs and wants of ratepayers and the community back up to government.

I seek the following decision from the Council:

Stop telling your community what the government has said they have to do, and start fighting for your community. **Otherwise, you are just puppets of the government, and not our representatives.**

Get out of the way of your community and let us achieve desirable outcomes the way we do it, not in a way dictated to us by a bunch of bureaucrats in Wellington who have probably never been here, experienced the way our community works, and certainly not walked on our land.

Facilitate, don't force. Maybe then your community might actually start to value and respect you.

Important information:

1. The Council must receive this submission before the closing date and time for submissions (5pm 21 October 2022)
2. Please note that submissions, including your name and contact details are treated as public documents and will be made available on council's website. Your submission will only be used for the purpose of the District Plan Review.
3. Submitters who indicate they wish to speak at the hearing will be emailed a copy of the planning officers report (please ensure you include an email address on this submission form).

Send your submission to:

Post to: Proposed District Plan
Strategic Planning and Policy, Far North District Council
Far North District Council,
Private Bag 752
KAIKOHE 0400

Email to: pdp@fndc.govt.nz

Or you can also deliver this submission form to any Far North District Council service centre or library, from 8am – 5pm Monday to Friday.

Submissions close 5pm, 21 October 2022

Please refer to pdp.fndc.govt.nz for further information and updates.

Please note that original documents will not be returned. Please retain copies for your file.

Note to person making submission

Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least one of the following applies to the submission (or part of the submission):

- It is frivolous or vexatious
- It discloses no reasonable or relevant case
- It would be an abuse of the hearing process to allow the submission (or the part) to be taken further
- It contains offensive language
- It is supported only by material that purports to be independent expert evidence but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

Good afternoon Andrew,
Thank you for email.

I have been down in Auckland with my Dad regarding serious health matters, arrives home late last night.

I've contacted Spark for a letter of confirmation to provide proof of "Internet Connection Faults & Failure of Services".

Supporting proof of the faults lodged with delays in time fixing our services with repeated failures due to Chorus Tech people having technical difficulties in those repairs to services.

This has not come through as yet, so will have that along with relevant info hopefully by Mon

Thank you kindly

Cherie Gates on behalf of Rodney Gates

Good morning Cherie

I can confirm that I have received your submission on Friday 4th November 2022.

It would be helpful for the commissioners when they make a decision on whether to accept the submission to document the reasons for the late submission. If you are able to provide me with a summary then I can attach it to your submission.

Kind regards

Andrew McPhee

Good afternoon Andrew,

Hopefully you will receive this test email, the Submission documents are following in a separate email.

Following our conversation, I thank you for your patience & documenting notes on file the reason for the late submission.

Submission from 20 Oct 2022, addressing concerns for The Proposed District Plan for the Far North Region, which directly would affect my property & farm at 22 Thompsons Access Road, Kaeo.

I understand the Internet Connection issue has now been resolved & rectified. 20 Oct 2022 Fault lodged: 100000 962382 & 100000 965517 with Spark. Chorus Techs have had several attempts to fix connection. I expect this has now been fully resolved & working efficiently. Please advise if you receive this email.

Kind regards

Cherie Gates on behalf of Rodney Gates

Good afternoon Cherie

As per our conversation earlier please find a link to the submission page of the proposed district plan [Make a submission - Proposed District Plan Far North District Council \(fndc.govt.nz\)](#) There is also a 'step by step guide' on this web page.

To do it 'online' click on the link

That will take you to the Map page where you choose 'Submissions' on the left

Once we receive a copy of your late submission we will send a confirmation and a copy of your submission. Because your submission will be received after the closing date for submissions (5pm, Friday 21 October 2022):

- Your submission will be summarised and made available on the Council's website, alongside all other submissions, but will be labelled as a 'late submission'.
- When the Independent Hearing Panel for the Proposed District Plan is appointed (early 2023), they will make a procedural decision on whether to accept the late submissions. To assist with their decision please advise the reasons that your submission was submitted late. We will let you know the outcome of this decision when it is made.

If your submission is accepted and you have indicated that you would like to speak to your submission at a hearing, you will be contacted directly when hearings are being scheduled for the topics relevant to your submission. For more information and next steps please visit: <https://pdp.fndc.govt.nz>.

If you have any further questions please let me know.

Kind regards

Andrew McPhee
