

Appendix 1 – Officers Recommended Amendments to Designations Chapter

Note the below provisions represent the Section 42A Report Writing Officer’s recommended amendments to the provisions of the Proposed District Plan, in response to submissions (with underline used for new text and ~~strikethrough~~ for deleted text).

AIRWAYS CORPORATION OF NEW ZEALAND LIMITED (ACNZ)

Overview

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of ‘spot zoning’ over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.

Designations

Far North Road, Waipapakauri	
Designation unique identifier	ACNZ121
Designation purpose	Air Navigation Aids
Site identifier	Pt Lot 6 DP1126 (Gaz 1981 p2992), 3.96ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	Yes
Additional information	Rollover without modification

1. The following conditions apply in respect of ACNZ121

- a. Exposures to radiofrequency fields shall comply with *NZS 2772.1:1999 - Radiofrequency Fields: Part 1: Maximum Exposure Levels: 3 kHz – 300 GHz* ("the New Zealand Standard") as measured at the designation boundary.
- b. Prior to commencing any new transmission (including a transmission from an existing facility at a different frequency), or increasing the power of existing transmissions, the following shall be sent to and received by the Council (where any works are involved, this could be incorporated within the outline plan of works):
 - i. written notice of the location of the facility or proposed facility and
 - ii. a report prepared by a radio technician/engineer or physical scientist containing a prediction of whether the New Zealand Standard will be complied with.

- c. If the report provided to the Council under Condition (b) predicts that the emissions will exceed 25% of the exposure limit set for the general public in the New Zealand Standard, then, within 3 months of the (change in) radiofrequency emissions commencing, a report from National Radiation Laboratory certifying compliance with the New Zealand Standard, based on measurements at the site, will be provided to the Council.

CHORUS NZ LIMITED (CNZ)

Overview

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.

Designations

Te Kao Exchange	
Designation unique identifier	CNZ17
Designation purpose	<u>Telecommunications and Radio Communications and Ancillary Purposes</u>
Site identifier	Part Parengarenga SB2B Blk XVI Muriwhenua SD, 304 sqm
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	Yes
Additional information	Rollover designation with minor updates to the schedule
Waiharara Exchange	
Designation unique identifier	CNZ18
Designation purpose	<u>Telecommunications and Radio Communications and Ancillary Purposes</u>
Site identifier	Pt Sec 30 SO47784, Blk V Opoe SD, 278 sqm
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	Yes

Conditions	Yes
Additional information	Rollover designation with minor updates to the schedule

1. CONDITIONS APPLYING TO ALL DESIGNATIONS

The designation shall be subject to the following conditions:

- a. Exposures to radiofrequency fields shall comply with *NZS 2772.1:1999 "Radiofrequency Fields: Part 1: Maximum Exposure Levels 3 kHz — 300 GHz"* ("the New Zealand Standard").
- b. Prior to commencing any new transmission (including a transmission from an existing facility at a different frequency), or increasing the power of existing transmissions, the following shall be sent to and received by the Council (where any works are involved, this could be incorporated within the outline plan of works):
 - i. written notice of the location of the facility or proposed facility and
 - ii. a report prepared by a radio technician/engineer or physical scientist containing a prediction of whether the New Zealand Standard will be complied with.
- c. If the report provided to the Council under condition (b) predicts that the emissions will exceed 25 percent of the exposure limit set for the general public in the New Zealand Standard, then, within three months of the change in radiofrequency emissions commencing, a report from National Radiation Laboratory certifying compliance with the New Zealand Standard, based on measurements at the site, will be provided to the Council.
- d. The amount of earthworks and vegetation removal permitted shall be no more than is reasonably necessary to allow any structure to be erected or other work to be carried out.

2. FURTHER CONDITIONS APPLYING TO SITES CNZ21, CNZ22, CNZ28, CNZ32, CNZ34, CNZ128, CNZ132, CNZ133 AND CNZ135

- a. The height of any new mast shall not be greater than 20m and the total height, including any antenna and aerials, shall not exceed 21m (height is measured from ground level, in accordance with the definitions in ***Chapter 3 of the Plan***)

3. FURTHER CONDITIONS APPLYING TO ALL OTHER DESIGNATIONS OF CHORUS NEW ZEALAND

- a. Maximum building height shall not be more than that provided for as a permitted activity in the underlying environment.
- b. Masts and antennae shall be not more than 2 metres higher than the maximum height permitted for antennae in the underlying environment.

FAR NORTH DISTRICT COUNCIL (FN)

Overview

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.

Designations

Entire District	
Designation unique identifier	
Designation purpose	Covers all 2500 km of road network within the district for which the council is responsible for maintaining.
Site identifier	Roads for the entire district
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
Houhora Heads Motor Camp Septic Tanks & Sand Filter Beds	
Designation unique identifier	FN155
Designation purpose	Sewage Treatment & Disposal Purposes
Site identifier	Houhora head motor camp septic tanks and sand filter beds 122 Houhora Heads Road, Houhora Pt Lot 1, DP45290; 4.96ha.
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	<u>Primary</u>
Conditions	No
Additional information	Rollover designation with minor corrections to the schedule
Awanui - Extended Aeration Plant & Wetland	

Designation unique identifier	FN156
Designation purpose	Sewage Treatment & Disposal Purposes
Site identifier	Awanui extended aeration plant and wetland 94 State Highway 1, Awanui Pt Section 10S Awanui SETT, Lot 1 DP 99366; 0.3ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
Ahipara Oxidation Ponds	
Designation unique identifier	FN157
Designation purpose	Sewage Treatment & Disposal Purposes
Site identifier	Ahipara Oxidation Ponds Sandhills Road, Ahipara Pt Section 153 Blk IV, Ahipara SD, 1.3748ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
Ahipara Wetlands	
Designation unique identifier	FN158
Designation purpose	Sewage Treatment & Disposal Purposes
Site identifier	Ahipara Wetlands Sandhills Road, Kaitaia Pt Allotment 25 PSH of Ahipara, 0.7ha
Lapse date	Given effect
Designation hierarchy under	Primary

section 177 of the RMA	
Conditions	No
Additional information	Rollover designation
Kaitaia Oxidation Ponds	
Designation unique identifier	FN159
Designation purpose	Sewage Treatment & Disposal Purposes
Site identifier	Kaitaia Oxidation ponds 303 Bonnett Road, Kaitaia Section 87 Blk V Takahue SD Section 1 SO 447437; 19.24ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	Yes
Additional information	Rollover designation
Rangiputa Oxidation Ponds	
Designation unique identifier	FN160
Designation purpose	Sewage Treatment & Disposal Purposes
Site identifier	Rangiputa Oxidation Ponds Lot 1 Rangiputa Road, Karikari Peninsula Lot 1, DP72867, 1.1399ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
Whatuwhiwhi Oxidation Ponds & Wetland	
Designation unique identifier	FN161
Designation purpose	Sewage Treatment & Disposal Purposes

Site identifier	Whatuwhiwi Oxidation Ponds and Wetlands Inland Road, Karikari Lot 1, DP52317, 7.5481ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
East Coast Bays Oxidation Ponds	
Designation unique identifier	FN162
Designation purpose	Sewage Treatment & Disposal Purposes
Site identifier	East Coast Bays Oxidation Ponds State Highway 10, Mangonui Pt Allotment 24 PSH OF Taipa, Area B SO Section 1 SO 69379, Road Reserve, 8.66ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
Hihi Treatment Plant	
Designation unique identifier	FN164
Designation purpose	Sewage Treatment & Disposal Purposes
Site identifier	Hihi Treatment Plant 13 Marchant Road, Hihi Lot 78, DP73991, <u>0.0401ha.</u>
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No

Additional information	Rollover designation with minor corrections to the schedule, and minor mapping changes
Hihi Treatment Plant	
Designation unique identifier	FN164A
Designation purpose	Sewage treatment & Disposal Purposes
Site identifier	Hihi Treatment Plant Hihi Road, Hihi Pt Lot 1 DP 37697 and Pt Lot 2 DP 86975, <u>0.38ha</u>
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	Yes
Additional information	Rollover designation
Kaeo/ Whangaroa Oxidation Ponds & Wetland	
Designation unique identifier	FN166
Designation purpose	Sewage Treatment & Disposal Purposes
Site identifier	Kaeo Oxidation Plant Dip Road, Kaeo Lot 1, DP100604, 2.3ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
Waitangi Forest Natural Wetland, Kerikeri	
Designation unique identifier	FN168
Designation purpose	Sewage Treatment & Disposal
Site identifier	Kerikeri Wetlands Waitangi Forest Pt of Lt 1, DP137183, approx 15ha

Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation with minor corrections to the schedule
Bay of Islands Wastewater Treatment Plant	
Designation unique identifier	FN169
Designation purpose	Sewage treatment and disposal purposes
Site identifier	Bay of Islands Wastewater Treatment Plant Te Puke Road, Waitangi Pt of Lt 1, DP137183, approx 30ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation with minor corrections to the schedule
Kawakawa Oxidation Ponds	
Designation unique identifier	FN170
Designation purpose	Sewage Treatment & Disposal purposes
Site identifier	Kawakawa Oxidation Ponds Lot 1 Paihia Road, Kawakawa Lot 1, DP61906, <u>4.6134ha</u>
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
Kaikohe Anaerobic Pond, Oxidation Pond & Wetland	

Designation unique identifier	FN171
Designation purpose	Sewage Treatment & Disposal Purposes
Site identifier	Kaikohe Anaerobic Pond, Oxidation Pond and Wetland Lot 2 Mangakahia road, Kaikohe Lot 2, DP45233, Sec 2, SO12295, Sec 27, SO40585, SO69436, Blk XV, Omapere SD, 31.5127ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation minor changes to the schedule - <u>Designated powerline goes through the designation</u>
Opononi-Omapere Oxidation Ponds	
Designation unique identifier	FN172
Designation purpose	Sewage Treatment & Disposal Purposes
Site identifier	Opononi- Omapere Oxidation Ponds Baker Drive, Opononi Part of Pt Taumatawiwi SO64739, Blk VI Hokianga SD, 0.51ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation minor changes to the schedule
Opononi-Omapere Wetland	
Designation unique identifier	FN173
Designation purpose	Sewage Treatment & Disposal Purposes

Norman Senn Avenue: Reservoir & Storage Treatment Plant	
Designation unique identifier	FN184
Designation purpose	Water Supply, Storage & Treatment Purposes
Site identifier	Norman Senn Avenue: Reservoir & Storage Treatment Plant 42 Okahu Road, Kaitaia Sec 91, SO54559, Blk V Takahue SD, 2.24ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
Storage Reservoir & Treatment Plant	
Designation unique identifier	FN186
Designation purpose	Water Supply, Storage & Treatment Purposes
Site identifier	Kerikeri Storage Reservoir and Treatment Plant 398 Kerikeri Road, Kerikeri Lot 1, DP69712, 0.4023ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
Tarairi Hills Catchment & Dam	
Designation unique identifier	FN188

Designation purpose	Water Supply, Storage & Treatment Purposes
Site identifier	Taraire Hills Catchment and Dam Reservoir Road, Kaikohe Pt Taraire 2F, 2J1F, 2J1G, 2J1J, 2J1K, Lot5 DP 27131, 26.46ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation - Has designated powerline running through it
Taraire Hills Reservoir & Treatment	
Designation unique identifier	FN189
Designation purpose	Water Supply, Storage & Treatment Purposes
Site identifier	Taraire Hills Reservoir and Treatment Reservoir Road, Kaikohe Pt Taraire 2F, Section 1 SO 387561, Section 2 SO 387561, Section 3 SO 387561, Section 4 SO 387561, Section 5 SO 387561, Part lot 1 DP96584, 0.8ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
Wairoro Stream Intake	
Designation unique identifier	FN190
Designation purpose	Water Supply, Storage & Treatment
Site identifier	Wairoro Stream Intake 15 Reservoir Road, Kaikohe Pt Taraire 2T2, approx.0.01ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary

Conditions	No
Additional information	Rollover designation minor changes to the schedule - Site is located within Top energy Designation TE202
Monument Hill Bore, Reservoir & Treatment	
Designation unique identifier	FN191
Designation purpose	Water Supply, Storage & Treatment
Site identifier	Monument Hill Bore, Reservoir and Treatment 49 Monument Road, Kaikohe Lots 1 & 2, DP30163, Blk XV Omapere SD, 2.3ha
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
Kawakawa Reservoir & Treatment Plant	
Designation unique identifier	FN193
Designation purpose	Water Supply, Storage & Treatment Purposes

------------------------	--

CONDITIONS APPLYING TO FN195

- a. That the area within the designated land marked A on SO Plan 69373 is to be set aside to serve as a buffer between the activities authorised by the designation and the adjoining land;
- b. That the buffer area shall be maintained in its naturally occurring vegetated state and be included in the Landfill Closure Management Plan prepared by Tonkin and Taylor Ltd dated July 2003.

CONDITIONS APPLYING TO FN164A

FN164A Hihi Sewerage Treatment and Disposal designation applies to Pt Lot DP 37697 and Pt Lot 2 DP 86975 (sanitary works sewage disposal marsh Gaz. 1993 P1174) pursuant to RC 2061079 and subsequent Environment Court Consent Order, dated 1 May 2008. This designation shall be subject to the following conditions:

- a. That pursuant to Section 176A RMA Amendment 1997, an outline plan for the proposed work be submitted by the applicant to the Manager, Resource Consents of the Far North District Council, to the satisfaction of the Manager. The Outline Plan is required to show —
 - i. All buildings and tanks comprising the proposed wastewater treatment plant shall be located generally within the area indicated for structures in the proposed layout plan — Opus 26/05/06, detailed on page 19 of the hearing agenda (RC 2061079 — RMADES);
 - ii. The maximum height of any buildings or structures shall not exceed 8 metres. The method for determining height shall be as per the definition of the District Plan in force at the time of applying for Building Consent; and
 - iii. After consultation with the adjoining landowners and prior to the commencement of the construction works, the Consent Holder shall submit a Landscape Plan, prepared by a qualified Landscape Architect to the satisfaction of the Manager, Resource Consents of the Far North District Council. The Landscape Plan shall show all plantings proposed to visually screen the facility. The Plan shall show:
 - Schedules of planting species.
 - Site preparation requirements and proposed protection if required (fencing).
 - Average planting densities.
 - Grades of planting with any staking and fertiliser requirements.
 - Maintenance programmes detailing the manner in which the planting described above will be maintained.
 - Areas of native vegetation that are to be preserved.
 - All such work shall be undertaken in accordance with the approved implementation details of the plantings and be maintained on a continuing basis thereafter.
 - Screening of the north-eastern boundary of the facility, specifically between the location of the proposed wastewater treatment plant and the house that is currently being constructed on Lot 7 DP 195378. Planting shall be with fast growing tree species or mature specimens.
- b. All noise associated with the site and access construction shall comply with the following permitted activity standard of the Rural Production zone (Rule 8.6.5.7(a)) of the Far North District Council Operative Plan:
 - 0700 to 2200 hours 65 dba L10
 - 2200 to 0700 hours 45 dba L10 and 70 dba Lmax|
 Construction noise shall be within levels required by NZS 6803 1999.
- c. The area of benefit for the proposed wastewater treatment plant on the designated site shall be restricted to Hihi township.

CONDITIONS APPLYING TO FN159

1. Construction traffic for the reed sludge drying beds shall be restricted between the hours of 7am to 8pm Monday to Friday and 8am to 8pm all other days.
2. The construction, operation and maintenance activities of the reed sludge drying beds shall comply with the Rural Production permitted noise standard 8.6.5.1.7.
3. Prior to any earthworks being undertaken for construction of the reed sludge drying beds all workers shall be provided with a copy of the Historic Places Accidental Discovery Protocol which explains their responsibilities under the Heritage New Zealand Pouhere Taonga Act 2014. If any archaeological material is discovered Te Runanga o Te Rarawa should also be contacted. Careful attention should be paid to any wooden material that is unearthed due to potential for wood artefacts being present.
4. A maximum of 60 Traffic Movements per day for the operation and maintenance of the Kaitaia Sewage Treatment Plant.
5. In the event of any dust nuisance occurring to adjoining land, dust mitigation works shall be undertaken as required.

CONDITIONS APPLYING TO FN252

This designation shall be subject to the following conditions:

1. Subject to the conditions below, the initial works to give effect to the designation shall be in general accordance with Notice of Requirement Documentation dated June 2016 and in particular the plans and appendices in the report entitled "*Omanaia — Rawene Water Supply — Preliminary Design Report*", by CH2M BECA dated 18 February 2015. NOTE: This condition shall not limit any future activities within the designation area provided that they are within the scope of the designation as set out above.
2. Prior to works commencing on the new WTP, an Outline Plan of works shall be prepared in accordance with section 176A of the RMA.
The Outline Plan shall also include the following:
 - a. A lighting Plan indicating the type and location of site lighting to be provided as part of the new WTP and proposed measures to minimise adverse light spill and glare effects on neighbouring properties
3. Noise levels shall comply with the Far North District Plan noise standard for the Rural Production Zone. These are as follows:
0700 to 2200 hours 65 dba L10
2200 to 0700 hours 45 dba L10 and 70 dba Lmax
4. Noise levels shall be measured in accordance with the New Zealand Standard NZS 6801:2008 "Acoustics - Measurement of environmental sound" and assessed in accordance with New Zealand Standard NZS6802:2008 "Acoustics - Environmental Noise".
5. Noise from demolition and construction shall comply with the guidelines and recommendations of NZS 6803:1999 "Acoustics-Construction Noise." Noise levels shall be measured and assessed in accordance with NZS 6803: 1999 "Acoustics - Construction Noise"
6. Any construction or ongoing operational works required for the WTP shall be undertaken in accordance with recommendations 2-4 on page 14 of the "Archaeological Assessment of the Proposed Water Treatment Facility, Waima/Omanaia, Hokianga, Far North" dated July 2016 prepared by Northern Archaeological Research Ltd. These are worded as follows:
 - "2. Should any changes to the proposed FNDC facility or further earthworks be proposed that have not been subject to an archaeological survey and assessment, the proposed works will need to be assessed for their potential to affect archaeological sites.
 3. Pit site 006/769 occurs directly adjacent to the farm and supply weir access track and this site should be marked with battens and plastic tape to prevent and accidental disturbance during delivery of machinery for digging of the pipeline.
 4. We also advise that the west side of the northern end of the pipeline route and existing

easement be marked off to prevent machinery extending downstream to the area of the pa 006/5 (also recorded as 006/87)."

7. FNDC shall ensure that the following Accidental Discovery Protocol (ADP) will be followed in the unlikely event of any unidentified archaeological site(s), koiwi tangata human remains or artefacts of Māori origin being identified during the construction of the WTP.

Accidental Discovery Protocol:

- a. Work shall cease immediately at that place.
 - b. The contractor must shut down all machinery, secure the area and advise the Site Manager.
 - c. The Site Manager shall notify Heritage New Zealand Pouhere Taonga, FNDC, and if necessary the appropriate consent process shall be initiated.
 - d. If the site is of Māori origin, the Site Manager shall notify the appropriate iwi group(s) to determine what further actions are appropriate to safeguard the site or its contents.
 - e. If skeletal remains are uncovered the Site Manager shall advise the Police.
 - f. Works affecting the archaeological site shall not resume until Heritage New Zealand Pouhere Taonga gives approval for work to continue. This standard ADP will be included as a necessary part of the site works.
8. The Requiring Authority shall provide to the Far North District Council for approval a Construction Management Plan prior to the commencement of any works associated with the construction of the new WTP.
- The plan shall contain information on, and site management procedures, for the following:
- i. The timing of earthworks and construction works, including hours of work, key project and site management personnel.
 - ii. The transportation of construction materials to the site and associated controls on vehicles through sign-posted site entrance/exits and the loading and unloading of materials.
 - iii. The earthworks, including retaining structures and any necessary dewatering facilities, prepared by a suitably qualified geotechnical engineer.
 - iv. Control of dust and noise along the access corridor and on-site and any necessary avoidance or remedial measures.
 - v. Prevention of earth and other material being deposited on surrounding roads from vehicles and remedial actions should it occur.
 - vi. Safety measures, including signage, to inform adjacent landowners and occupiers.
 - vii. Erosion and sediment control measures to be in place for the duration of the works, in particular those employed to prevent discharge of silt laden stormwater runoff into the adjacent stream.

Once approved, all construction works on the site are to be undertaken in accordance with the approved Construction Management Plan identified above.

9. Any pruning of native vegetation near the boundary of section 2 that is necessary for the construction or ongoing operation of the raw and treated water tanks shall be:
 - a. Undertaken by suitably qualified and experienced arborist and carried out in accordance with best arboricultural practices.
 - b. Carried out in manner that does not cause the death of the tree(s). The extent of pruning which will avoid the death of the tree shall be at the discretion of the arborist undertaking the work
10. The exterior of the water storage reservoir and treatment plant building (excluding joinery) shall be finished in a light green or earthy colour with a light reflectance value less than 35%
Note: The colour selection for the exterior of the buildings and structures shall be included in the Outline Plan or Works required under condition 2 of this consent.
11. Stormwater design shall be designed so as to minimise erosion and sediment discharges to waterbodies, and any discharge of stormwater to water will not cause any conspicuous change in the colour or visual clarity of the receiving water beyond a 10m radius from point of discharge.

CONDITIONS APPLYING TO FN253

This designation shall be subject to the following conditions:

1. Subject to the conditions below, the initial works to give effect to the designation shall be in general accordance with the "Request Alteration to Designation FN 253- Kerikeri Wastewater Treatment Plant" letter dated 5 October 2017 and supporting documentation including the Addendum to the Assessment of Environmental Effects prepared by AECOM dated 5 October 2017, and the letter and attachments from the FNDC Consents Planner dated 30 November 2017.
Except where altered by the subsequent Notice of Requirement to Alter Designation FN 253 — Kerikeri Wastewater Treat Plant Letter dated 27 November 2018 and supporting documentation including the Treatment Plant Landscape Plan prepared by hawthorn Landscape Architects dates, November 2018, and the plans titled Alteration to Designation FN 253 — Kerikeri WWTP and KWWTP Designation, prepared by the Far North District Council Dated 27 November 2018.
2. Provide, for the Council's Manager, Resource Consents, a covenant document for the continued protection of the existing gum trees in the gully to the west of the designation site as shown on the plan submitted with the application and titled "Proposed existing gums to be protected via covenant" dated 30 November 2017. The approved covenant is to be registered on the title of the affected land prior to the operation of the new WWTP.
3. Prior to works commencing on the new WWTP, an Outline Plan of works shall be prepared in accordance with section 176A of the RMA.
The Outline Plan shall also include the following:
 - a. A Lighting Plan indicating the type and location of site lighting to be provided as part of the new WWTP and proposed measures to minimise adverse light spill and glare effects on neighbouring properties.
 - b. A Planting Plan indicating any proposed planting to be undertaken as part of the river bank enhancement.
4. Noise levels shall comply with the Far North District Plan noise standard for the Rural Production Zone. These are as follows:
0700 to 2200 hours 65 dBA L10
2200 to 0700 hours 45 dBA L10 and 70 dBA Lmax
5. Noise levels shall be measured and assessed in accordance with the requirements of New Zealand Standards NZS 6801:2008 "Measurement of Environmental Sound" and NZS 6802: 2008 "Acoustics-Environmental Noise".
6. Noise from construction shall not exceed the limit recommended in, and shall be measured and assessed in accordance with, New Zealand Standard NZS 6803:1999 "Acoustics- Construction Noise".
7. FNDC shall ensure that an Accidental Discovery Protocol (ADP) will be followed in the unlikely event of any unidentified archaeological site(s), koiwi tangata human remains or artefacts of Māori origin being identified during the construction of the WWTP.
Accidental Discovery Protocol:
 - a. Work shall cease immediately at that place.
 - b. The contractor must shut down all machinery, secure the area and advise the Site Manager.
 - c. The Site Manager shall notify Heritage New Zealand Pouhere Taonga, FNDC, and if necessary the appropriate consent process shall be initiated.
 - d. If the site is of Māori origin, the Site Manager shall notify the appropriate iwi group(s) to determine what further actions are appropriate to safeguard the site or its contents.
 - e. If skeletal remains are uncovered the Site Manager shall advise the Police.
 - f. Works affecting the archaeological site shall not resume until Heritage New Zealand Pouhere Taonga gives approval for work to continue.

This standard ADP will be included as a necessary part of the site works.

8. The Requiring Authority shall provide to the Far North District Council for approval a Construction Management Plan prior to the commencement of any works associated with the construction of the new WWTP.

The plan shall contain information on, and site management procedures, for the following:

- i. The timing of earthworks and construction works, including hours of work, key project and site management personnel.
- ii. The transportation of construction materials to the site and associated controls on vehicles through sign-posted site entrance/exits and the loading and unloading of materials.
- iii. The earthworks, including retaining structures and any necessary dewatering facilities, prepared by a suitably qualified geotechnical engineer. Control of dust and noise along the access corridor and on-site and any necessary avoidance or remedial measures.
- iv. Control of dust and noise along the access corridor and on-site and any necessary avoidance or remedial measures
- v. Prevention of earth and other material being deposited on surrounding roads from vehicles and remedial actions should it occur.
- vi. Measures, including signage, to inform adjacent landowners and occupiers about the construction work, and to inform road users of the associated construction traffic.
- vii. Erosion and sediment control measures to be in place for the duration of the works, in particular those employed to prevent discharge of silt laden stormwater runoff into the adjacent stream.
- viii. Measures to protect the adjoining Marginal Strip from construction activities

That all construction works on the site are to be undertaken in accordance with the approved construction management plan.

FAR NORTH HOLDINGS LIMITED (FH)

Overview

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.

Designations

Wiroa Road, Kerikeri	
Designation unique identifier	FH201
Designation purpose	<p>The nature of the activities authorised by this designation are described as follows:</p> <ol style="list-style-type: none"> 1. <u>Aircraft operations, private aircraft traffic, domestic and international aircraft traffic, rotary wing operations, aircraft servicing, general aviation airport or aircraft training facilities, and associated offices;</u> 2. <u>Runways, taxiways, aprons, and other aircraft movement areas;</u> 3. <u>Terminal buildings, hangars, control towers, rescue facilities, navigation and safety aids, lighting, car parking, maintenance and service facilities, catering facilities, freight facilities, cool stores, quarantine and incineration facilities, border control and immigration facilities, medical facilities, fuel storage and fuelling facilities, facilities for the handling and storage of hazardous substances, and associated offices;</u> 4. <u>Roads, accessways, stormwater facilities, monitoring activities, site investigation activities, infrastructure and utility activities, landscaping, and all related construction and earthwork activities;</u> 5. <u>Vehicle parking and storage, rental vehicle facilities, vehicle valet activities, public transport facilities;</u> 6. Retail activities, commercial and industrial activities provided they are associated with and principally serve, the function and operation of Bay of Islands Airport, and passengers.

Conditions	Yes
Additional information	Formerly BC230 Rollover designation with minor changes to the schedule <u>Slight mapping change to increase designated area to ensure the management of trees or other obstructions that may impact the site.</u>

Designation conditions

The designations provide generally for broadcasting telecommunications (including radio communications) and ancillary and associated purposes. It is intended that the designation will provide for the addition of further equipment to the existing structures as the mix of equipment will need to change over time, with particular reference to dishes, antennas and other ancillary equipment. Conditions have therefore been attached to the designations limiting the extent to which such ancillary equipment may be added without the need for an outline plan of works in terms of s176A of the RMA. These conditions are as follows:

1. The following equipment shall be permitted to be attached to or erected on the existing towers and structures or elsewhere on the site, on a permanent basis without the provision of any outline plan of works pursuant to section 176A of the RMA:
 - a. up to six dish antennas with a maximum diameter greater than 2.5m but less than 5m;
 - b. broadcasting, telecommunication and radio communication antennas including whip, grid, yagi, dipoles and panels or similar ancillary equipment, but no single antenna dish or panel shall have a solid frontal surface area of greater than 5m² or 2.5m in diameter in the case of dish antennas, unless otherwise specified in (a) above.
2. No new structures shall be erected on the site without submission of an outline plan of works pursuant to section 176A of the RMA other than those set out in condition 1 above, or structures which are either intended to replace the structures existing on the site as at 1 June 1999, or any temporary structures erected for the purposes of allowing maintenance or repair of existing structures or equipment (provided that such temporary structures will be removed once any such maintenance or repair has ceased).
3. Any additional antenna or structure shall be finished in a colour approved by the District Council. For the purpose of this condition the dark grey colour in which some of the existing structures are finished, and the orange and white bands on the tower (where required by Aviation regulations), shall be deemed to be approved colours.
4. Exposures to radiofrequency fields shall comply with *NZS 2772.1:1999 — "Radiofrequency Fields: Part 1: Maximum Exposure Levels: 3 kHz — 300 GHz"* ("the New Zealand Standard").
5. Where the requiring authority is required to submit an outline plan of works for the addition of broadcasting and telecommunications antennas at the facility, such an application shall include a statement from a suitably qualified and registered radio frequency engineer.

6. Not more frequently than every five years after commencement of the designation, the requiring authority shall, if requested by the Council, supply a certificate from an appropriately qualified and experienced registered engineer who is also an approved radio engineer in terms of the Radio Communications Act, certifying that the radiofrequency emissions from the site comply with *NZS 2772.1:1999 — Radiofrequency Fields: Part 1: Maximum Exposure Levels 3 kHz — 300 GHz*.

THE FOLLOWING ADDITIONAL CONDITION APPLIES IN RESPECT OF KL230

- a. The number of masts or towers on site shall be limited to a total of two and the height of such structures shall not exceed a height of 16m, including aerials and lightning rods.

MINISTER OF CORRECTIONS (MCOR)

Overview

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.

Designations

Community Corrections, Kaikohe	
Designation unique identifier	MCOR1
Designation purpose	Community Correction Activity
Site identifier	<u>17 Station Road East, Kaikohe</u> Part Marino 2B2 Blk, Blk XV Omapere SD, 2878 sqm
Lapse date	N/A <u>given effect to</u>
Designation hierarchy under section 177 of the RMA	<u>Be Primary</u>
Conditions	No

Designation hierarchy under section 177 of the RMA	<u>Be Primary</u>
Conditions	Yes
Additional information	<u>Formerly MCO230</u> Rollover designation with minor corrections to schedule
MCOR2 Designation conditions	

This designation is for a Regional Corrections Facility for Northland and relates to the following: The construction, operation, maintenance and upgrading of a comprehensive regional prison and associated facilities and the authorisation of all ancillary activities and facilities including, but not limited to:

- Inmate accommodation ranging from low, through medium, to maximum security;
- Staff facilities;
- Administration;
- Rehabilitative programmes;
- Inmate employment;
- Vocational training;
- Recreational and exercise facilities;
- Horticultural areas;
- Visitors centre;
- Staff and visitor car parking;
- Internal roading;
- Security fences, light and towers;
- All other associated or ancillary land-use activities and all structures and facilities normally associated with a comprehensive regional prison.

The designation shall extend to all land included in Certificate of Title 46D/1389, being Lot 2 DP 89625 owned by the Minister (as shown on plan ASK-100E) but shall exclude the Waitotara and Waiapawa Ponds and land in the vicinity of those ponds as more particularly shown on plan ASK-100G (to be prepared).

Site Development

1. All custodial, industry and office buildings shall be generally located in the building area shown on plan ASK100E. Screening trees shall be planted so as to soften the visual impact of any buildings located on the southern ridge of the area shown as the building area, when viewed from Ngawha Springs Village or the adjoining Beadle property.
2. No buildings are to be erected within 450 metres of State Highway 12, being the area which has a common boundary with the property owned by J M and M A Anderson. In the event that the property comes under the Minister's ownership or control, this condition shall cease to have effect.
3. No building (excluding farm, storage or accessory buildings) shall be constructed or excavation works exceeding five metres in net depth (after cut and fill) shall be undertaken, within the geothermal buffer areas shown on plan ASK100E, and shall be in accordance with the conditions of the resource consents granted by the Northland Regional Council.
4. The entrance to Site D2 from State Highway 12 is to be formed by Transit New Zealand guidelines and standards. Transit New Zealand should be invited to review the access engineering proposals in the light of current traffic densities and average speeds past the proposed access point. As a minimum, there shall be a right turn bay constructed prior to any building-related earthworks being undertaken on the site.

Landscaping

5. A landscaping and planting plan for the designated site shall be submitted to the Far North District Council. The plan is to be prepared following consultation with those landowners with a boundary in common with the designated site. The plan shall be developed with the objectives of:

- Enhancing existing landscape features such as significant vegetation and remaining lengths of unculverted watercourses;
- Utilising native species in key area such as riparian margins;
- Mitigating visual impact, particularly from the Ngawha Village and adjoining properties.

The landscaping plan is to contain a programme for monitoring new plantings in order to ensure their initial establishment and long term success.

Lighting

6. A lighting plan shall be submitted to the Far North District Council. The plan shall show and describe the location, type, and intensity of lighting for all facilities planned on the site. Light spill shall be directed into the perimeter “sterile” areas or in similar manner to mitigate any impact on Ngawha Village.

Noise Emissions

7. Activities on the site shall not exceed the following noise levels as measured within the boundary of any site zoned residential or within the notional boundary of any dwelling on any other site zoned rural:

0700 to 2200 hours — 50 dBA L10

2200 to 0700 hours — 45 dBA L10 and

(the following day) — 75 dBA Lmax

Sound levels shall be measured in accordance with New Zealand Standard NZ6801:1991 Measurement of Sound, and assessed in accordance with NZS 6802:1991 Assessment of Environmental Sound.

Construction noise shall meet the limited recommended in, and shall be measured and assessed, in accordance with NZS 6803P:1984 The Measurement and Assessment of Noise from Construction, Maintenance and Demolition work.

The monitoring of these levels shall be an agenda item for regular discussion with the Community Liaison Group.

Discovery of Archaeological or Cultural Artefacts

8. Prior to commencement of site works and building construction, tangata whenua shall be consulted and a management plan developed setting out the protocols to be observed in the event of the discovery of koiwi (human remains).

9. An appointed archaeologist shall be on call during excavation works. If archaeological evidence is uncovered during the development of the site, the archaeologist will advise on appropriate mitigation measures.

10. In the event that any archaeological materials are discovered during site works or building construction, Schedule 1 of the Memorandum of Partnership between Ngati Rangi Development Committee and the Department of Corrections (dated 2 March 2001) and conditions 18 and 19 of the Northland Regional Council land use consent shall apply.

Ecological Protection and Enhancement

11. A Conservation Management Plan for the designated site, identifying areas recommended for protection and actions and procedures to maintain or enhance these areas, shall be submitted to the Far North District Council. This plan is to include indigenous flora areas around the Waitotara Pond, Waiapawa Pond, the shrub land area to the east of this pond and riparian areas adjacent to streams. The plan is to be prepared in consultation with Ngati Rangi representatives and the Department of Conservation. The plan shall include:

- Details of proposed fencing to exclude stock from areas recommended for protection, areas of existing shrub land, remnant indigenous habitat and linkage areas, with the proposed stock fencing being suitable for the free movement of indigenous wildlife.
- Details of the need for any culverts or stream works to provide for fish passage and where necessary any culverting or diversion of any stream shall be of sufficient size and design so that water velocities do not preclude fish passage at normal flows, and no physical barriers preclude fish passage.
- Details of the presence of indigenous orchids on the designated site, including the sun orchid *Thelymitra malvinie* and the need for associated protective measures.
- Details of fencing of areas recommended for protection and an associated programme for achieving this fencing.

The Conservation Management Plan shall contain an implementation programme relating to all of the above and a mechanism for ensuring ongoing consultation with interested parties and review provisions. The Plan shall also provide for the removal or ongoing control of environmental pest plants from the property and for effective pest control with riparian strips and shrub lands.

Community Liaison

12. The requiring authority shall establish a Community Liaison Group as a forum for informing the local community of, and receiving feedback on, the activities undertaken in accordance with the designation. It will be an ongoing point of contact between the requiring authority and the community.

The community Liaison Group shall be formed

within two months of a designation being included in the district plan pursuant to section 175 of the Act and shall have its first meeting at that time.

The Community Liaison Group shall comprise, as a minimum, one representative from each of the following:

- Far North District Council;
- Ngati Rangī;
- Ngapuhi;
- Other Ngawha hapu;
- Ngawha Springs township land owners;
- Adjacent rural landowners;
- Kaikohe business community;
- Prison management
- New Zealand Police.

It shall be the responsibility of the requiring authority to convene the meeting and to cover the direct costs of running the meetings. The requiring authority shall provide an opportunity for the Community Liaison Group to meet at least twice during the course of each year, and subject to agreement by prison management, which will not be unreasonably withheld, when otherwise sought by any of its members. The requiring authority shall not be in breach of this condition if any one or more of the named groups do not wish to be members of the Community Liaison Group or to attend any meetings. It is anticipated that the Community Liaison Group will formulate its own protocols in respect of its role. Its functions may include, but not be limited to:

- i. Appointment of new committee members;
- ii. Giving advice on appropriate protocols that may be carried out during the construction or operation of the prison to address cultural and spiritual issues;
- iii. Having input into the landscaping plan for the prison development;
- iv. Providing feedback to the requiring authority on any issues that may arise from the community as being of concern during the construction and operation of the prison;
- v. Providing input to the implementation and/or effectiveness of any of the conditions on the requirement.

Cultural

13. The requiring authority shall formalise a Memorandum of Understanding with appropriate representatives of the local Maori community. The Memorandum shall set out the parameters for the establishment of an ongoing relationship between the authority and the Maori community. One objective of the Memorandum shall be to provide a forum for discussion and, if needed resolution, of existing and future cultural issues. (The Minister shall not be in breach of this condition if any of the relevant hapu or other representatives of the local community choose not to enter into or adhere to such an agreement/understanding).

MINISTER FOR COURTS (MCOU)

Overview

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.

Designations

Redan Road, Kaitia	
Designation unique identifier	MCOU39
Designation purpose	<u>Judicial, court, tribunal and related purposes including collection of fines and reparation, administration, support, custodial services, and ancillary activities. Works include development and operation of land and building for aforementioned purposes.</u>
Site identifier	Lot 1, DP177374, CT109B/539, 3792sqm CFR NA 109B/539
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	Yes
Additional information	Rollover designation minor changes to the schedule (designation purpose and identifier)
Station Road, Kaikohe	
Designation unique identifier	MCOU40
Designation purpose	<u>Judicial, court, tribunal and related purposes including collection of fines and reparation, administration, support, custodial services, and ancillary activities. Works include development and operation of land and building for aforementioned purposes.</u>
Site identifier	Part Marino 2B2 Blk, Blk XV Omapere SD, 5325 sqm SD SO 62701 CFR NA88/877
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary

Conditions	No
Additional information	Rollover designation minor changes to the schedule (designation purpose and identifier)

ADDITIONAL CONDITION APPLYING TO MCOU39

- a. Where the designated area's external boundaries adjoin land zoned for residential or rural living purposes (and not designated for other purposes):
- i. the maximum building height shall not exceed 2m plus the shortest horizontal distance to the affected boundary;
 - ii. the details of landscaping fences or walls proposed in relation to any new substation structures shall be submitted to the Council as part of an outline plan of works.

MINISTER OF EDUCATION (ME)

Overview

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.

"Education Purposes" in the designation means:

- a) Enable the use of the facilitates on the site by and for the educational benefit of any school age students (Year 0-13) and early childhood children, regardless of whether they are enrolled at the institution located on the site.*
- b) Enable the provisions of supervised care and study opportunities for students outside school hours in school facilitates.*
- c) Enable the provision of community education (e.g. night classes for adults) outside school hours in school facilities.*
- d) Include but not be limited to the provision of academic, sporting, social and cultural education and training including through:

 - i. Formal and informal recreational, sporting and outdoor activities and competitions whether carried out during or outside school hours;*
 - ii. Formal and informal cultural activities and competitions, whether carried out during or outside school hours.*
 - iii. The provision of specialist hubs and units (including language immersion units and teen parenting units) for children with particular educational requirements or special needs.**
- e) Enable the use of facilities for purposes associated with the education of students, including school assemblies, functions, fairs and other gatherings whether carried out during or outside school hours.*
- f) Enable the provision of associated administrative services; car parking and vehicle manoeuvring; and health, social services and medical services (including dental clinics and sick bays).*
- g) Enable housing on site for staff members whose responsibilities require them to live on site (e.g school caretakers).*

Conditions	Yes
Additional information	Existing school New Designation (Notice of Requirement under Section 168 of the RMA 1991)

Designations Conditions:

The various designations and requirements of the Minister of Education are subject to the following conditions:

1. Traffic Management

That where an additional classroom or classrooms are proposed to be erected on the sites listed below a traffic management plan shall be submitted as a part of the outline plan of works:

- a. ME81 - Kerikeri Primary School;
- b. ME82 - Kerikeri High School;
- c. ME63 - Taipa Area School;
- d. ME104 - Kaikohe East School;
- e. ME106 - Kaikohe West School;
- f. ME94 - Paihia Primary School;
- g. ME77 - Bay of Islands College;
- h. ME252 - Te Kura Kaupapa Māori o Te Tonga o Hokianga (Koutu Point Road).

2. Building Setbacks (all designations)

New buildings or structures shall comply with the setback from boundaries for permitted activities for the applicable underlying zone provided that the setback can be reduced where the written consent to such a reduction has been obtained from the registered proprietor of the relevant adjacent land.

3. Conditions Relating to ME73 (Kaeo School, Play Centre & Whangaroa College) and ME97 (Russell School)

Development or works which have the potential to affect the following notable trees shall be subject to the specified conditions.

Designation #	Site, building or object	Plan references (<i>Planning Maps and APP2 - Schedule of notable trees</i>)
ME73	Gingko Tree	#119; Map 73
ME97	10 x <i>Trachycarpus</i> (Fan Palms)	# 52; Map 89

- a. The following works may be carried out on the scheduled trees without an outline plan of works:
 - i. trimming and maintenance, and the felling of any scheduled tree which has died, provided that such work is undertaken by or under the supervision of a member of the New Zealand Arboricultural Association who has advised the Council in advance of the work to be carried out;
 - ii. felling or limbing of any tree where such work is required as emergency work to safeguard life or habitable buildings from immediate danger or maintain or restore networks for energy, telecommunications or transport, provided that such work shall be carried out to the minimum required to protect human life, habitable buildings or the networks;
 - iii. planting and weeding of garden plants within the area covered by the crown periphery (dripline) of the tree.
- b. The following works may be carried out in accordance with an approved outline plan of works, where that outline plan of works has included an appropriate assessment of the works, including the need for the works and the likely long-term effects on the tree or trees involved:
 - i. the limbing of any tree, other than for the emergency purposes described in 4(a)(ii) above;
 - ii. the excavation, filling and provision of impermeable surfaces (including buildings) within the area covered by the crown periphery (dripline) of the tree.
- c. Any other works which have the potential to adversely affect the specified trees shall not be carried out unless and until the terms of the designation are altered to specifically provide for such works.

4. Conditions Relating to ME97 (Russell Primary School), ME111 (Kohukohu Primary School) and ME116 (Rawene Primary School)

Development or works which have the potential to affect the following heritage sites, buildings or objects shall be subject to the specified conditions.

Designation #	Site, building or object	Plan references (<i>Planning Maps and APP3 - Schedule of historic sites, buildings and objects</i>)
ME97	Russell Primary School	#51; Map 89
ME111	Stone arched bridge	#169; Map 100
ME116	School building (1882)	#199; Map 101

- a. The following works may be carried out on the scheduled buildings and items without an outline plan of works, where such works will not significantly alter the external appearance of the items:
 - i. general maintenance and repair, painting, roof replacement, replacement of exterior claddings, replacement of window glass and replacement of any window frame, provided

- that the materials and colours are in keeping with the historic character of the building or object;
- ii. the provision of security features such as lighting and alarms.
- b. The following works may be carried out on the scheduled buildings and objects only in accordance with an approved outline plan of works, where that outline plan of works has included an appropriate assessment of the works, including the need for the works and the likely effects on the heritage values of the building or item:
- i. additions and alterations which do not comply with the above.
- c. Any other works which have the potential to adversely affect the specified buildings and objects shall not be carried out unless and until the terms of the designation are altered to specifically provide for such works.

5. Outstanding Landscapes

The following conditions apply to ME52 (Herekino School), ME102 (Te Kura o Waikare) and ME117 (Te Kura Taumata o Panguru School), and apply to those parts of the sites identified by the Resource Maps as being within outstanding landscape notation.

- a. Any work within an outstanding landscape which involves any of the following:
 - i. any filling of more than 300m² in a year or involving a cut or fill upslope batter of more than an average of 1.5m in height over a continuous length;
 - ii. removal of vegetation for buildings or access of more than 1000m², or for purposes other than buildings or access;
 - iii. new buildings of exceeding 25m² in area;
 - iv. additions/alterations to buildings exceeding 20% of the GFA, or exceeding the height of, the building being added to or altered;

shall be accompanied by an outline plan of works which includes a professional assessment of the effects of the work on the landscape qualities of the outstanding landscape unit and how these are proposed to be mitigated.

6. Coastal Hazard

The following condition applies to that part of the designation numbered ME115 (Opononi Area School) which is within the Coastal Hazard 2 zone:

- a. Any proposal to:
 - i. erect a new building or structure; or
 - ii. carry out alterations or additions to existing buildings or structures which increase their external dimensions; or
 - iii. excavation or filling other than that required to maintain flood protection works, existing drains, existing buildings and structures, to establish, repair or replace permitted utilities, to erect fences, and to plant trees and plants;

shall be accompanied by a report or certificate from a suitably qualified and experienced professional indicating that the works will not increase the risk to people, property or the environment caused by coastal hazard.

7. Flood Susceptible Areas

The following condition applies to those designations numbered ME51 - Awanui Primary School, ME57 - Oruaiti School, ME62 - Pukepoto School, ME66 - Te Kura o Te Kao, ME71 - Kaitaia Intermediate, ME72 - Kaitaia School, ME85 - Motatau School, ME102 - Te Kura o Waikare, ME104 -

Kaikohe East School, ME107 - Northland College, ME108 - Te Kura Kaupapa Māori o Kaikohe, ME109 - Broadwood Area School, ME117 - Te Kura Taumata o Panguru School, ME119 - Waima School and ME139 - Broadwood School House applies only to those parts of the sites which fall within flood susceptible areas as identified on the Council's Hazard Register:

- a. Any outline plan of works shall be accompanied by a report or certificate from a suitably qualified and experienced professional indicating that the sub-floor design is able to withstand, and that the floor levels are above, a 50 year return period flood.

8. Conditions Relating to ME252 Te Kura Kaupapa Māori o Te Tonga o Hokianga, Koutu Point Road, Koutu

The following conditions apply to Designation ME252 (Te Kura Kaupapa Māori o Te Tonga o Hokianga, Koutu Point Road, Koutu) — refer RC 2120330:

Designation Specific Conditions

1. In accordance with section 184(1)(c) of the RMA this designation shall lapse on the expiry of 10 years after the date on which the designation is included in the District Plan unless:
 - It is given effect to before the end of that period; or
 - The territorial authority determines that substantial progress or effort has been made towards giving effect to the designation and is continuing to be made; or
 - The designation lapses earlier by virtue of the District Plan ceasing to be operative.
2. The Kura shall be limited to a roll of 200 students.
3. The planting plan is to be implemented during the planting season directly following the construction of the first stage of the educational facility and thereafter maintained, including the replacement of plants that die during the first three years after planting.
4. The maximum height of any building shall not exceed 8m except for any "gateway" structure into the site and a single gymnasium/multi-use building which are not to exceed 9m in height. The latter building shall not exceed 540m² in open plan recreational floor area.
5. The height of any boundary fencing will not exceed 2m.
6. The maximum building coverage over the whole site shall not exceed 10% of the site area.
7. The operation of the educational facility shall comply with the following noise limits measured at or within the boundary of any other site in this zone:
 - 0700hrs-2200hrs 55dBA L₁₀
 - 2200hrs-0700hrs 45dBA L₁₀ and 70dBA L_{max}
 This provision shall not apply in respect of the noise generated from student voices outside between 0800hrs and 1800hrs (excluding Sundays and public holidays).
 Sound levels shall be measured in accordance with the requirements of NZS 6801: 1991 Measurement of Sound and assessed in accordance with the requirements of NZS 6802: 1991 Assessment of Environmental Sound.
8. Construction noise shall comply with the requirements of NZS 6803:1999 Acoustics — Construction Noise.
9. Light spill is not to exceed 10 lux at the boundary of any adjoining site or 15 lux at the road reserve boundary.
10. In the event of an "accidental discovery" of archaeological material during site development works the following steps shall be taken:
 - a. All work on the site in the vicinity of the discovery will cease immediately. The contractor/works supervisor will shut down all equipment and activity in that area.
 - b. The contractor/works supervision will take immediate steps to secure the site (tape it off) to ensure the archaeological remains are undisturbed and the site is safe in terms of health and safety requirements. Work may continue outside of the site area.

- c. The contractor/works supervisor/owner will notify the Area Archaeologist of the Heritage New Zealand Pouhere Taonga (Northland Office), Tangata Whenua and any required statutory agencies if this has not already occurred.
- d. The Heritage New Zealand Pouhere Taonga will appoint/advise a qualified archaeologist who will confirm the nature of the accidentally discovered material.
- e. If the material is confirmed as being archaeological under the terms of the Heritage New Zealand Pouhere Taonga Act 2014, the landowner will ensure that an archaeological assessment is carried out by the qualified archaeologist, and if appropriate, an archaeological authority is obtained from the Trust before work resumes.
- f. If burials, human remains/koiwi tangata are uncovered, steps (a) to (c) above must be taken and the Area Archaeologist of the Heritage New Zealand Pouhere Taonga, the New Zealand Police and the Iwi representative for the area must be contacted immediately. The area must be treated with discretion and respect and the koiwi tangata/human remains dealt with according to law and Tikanga.
- g. Works at the site area shall not recommence until an archaeological assessment has been made, all archaeological material has been dealt with appropriately, and statutory requirements met. All parties will work towards work recommencement in the shortest possible timeframe while ensuring that archaeological and cultural requirements are complied with.

MINISTER OF POLICE (NZP)

Overview

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.

NORTHLAND REGIONAL COUNCIL (NRC)

Overview

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.

Designations

Veronica Point, Opuā	
Designation unique identifier	NRC 125
Designation purpose	Point Veronica Navigation Lead Light
Site identifier	SO46265, Pt Allot 200, Parish of Kawakawa
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
Perpendicular Point, Houhora	
Designation unique identifier	NRC 144
Designation purpose	Houhora Harbour Navigation Beacon
Site identifier	Pt Houhora Blk, Blk XI, Houhora East SD
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
Rangikapiti, Mangonui	

Designation unique identifier	NRC 145
Designation purpose	Mangonui Harbour Navigation Sector Light
Site identifier	Sec 20 Rangikapiti, Mangonui Parish, Blk V Mangonui SD
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
South Head, Whangaroa	
Designation unique identifier	NRC 146
Designation purpose	Whangaroa Harbour Navigation Beacon
Site identifier	Pt Kahikatoa Blk, Blk III, Whangaroa SD
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation
Kingfish Pt, Whangaroa	
Designation unique identifier	NRC 147
Designation purpose	Whangaroa Harbour Navigation Beacon
Site identifier	Pt Secs 2 & 3, Blk III Whangaroa SD
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation

English Bay, Opua	
Designation unique identifier	NRC 148
Designation purpose	Bay of Islands Navigation Lead Light
Site identifier	Pt Allot 202, Parish of Kawakawa
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	No
Additional information	Rollover designation

WAKA KOTAHI NZ TRANSPORT AGENCY (NZTA)

Overview

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.

Designations

State Highway 1	
Designation unique identifier	NZTA-1
Designation purpose	<u>To construct, operate, maintain, and improve a state highway, cycleway and/or shared path and associated infrastructure</u>
Site identifier	State Highway 1 from Cape Reinga in the north to the Whāngarei District boundary at Hūkerenui in the south
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary <u>Varies</u>
Conditions	No
Additional information	<p>Rollover with modification to schedule and mapping</p> <p>Notes: The following sections of State Highway 1 are Limited Access Road, as declared under Section 88 of the Government Roothing Powers Act 1989:</p> <ul style="list-style-type: none"> • Henderson Bay Road (RP 54/6.17) to SH 10(RP 54/6.06). --	--

State Highway 12

Designation unique identifier	NZTA-4
Designation purpose	<u>To construct, operate, maintain, and improve a state highway, cycleway and/or shared path and associated infrastructure</u>
Site identifier	State Highway 12 From the intersection with State Highway 1 at Ōhaeawai in the north to the Kaipara District boundary at Waipoua River in the south
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary-Varies
Conditions	No
Additional information	<p>Rollover with modification to schedule and mapping</p> <p>Notes: The following sections of State Highway 12 are Limited Access Road, as declared under Section 88 of the Government Roading Powers Act 1989:</p> <ul style="list-style-type: none"> • SH 1 to Kaikohe Borough boundary. Gaz 1979 p 1980. • Waiotemarama Gorge Road at Pakanae (RP 61/0) to Waiotemarama. Gaz 2000 p3942.

State Highway 15

Designation unique identifier	NZTA -5
Designation purpose	<u>To construct, operate, maintain, and improve a state highway, cycleway and/or shared path and associated infrastructure</u>
Site identifier	<u>State Highway 15 from the intersection with State Highway 1 at ŌKaihau in the north to the Whāngarei District boundary at Twin Bridges in the south</u>
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary-Varies
Conditions	No
Additional information	<p>Rollover with modification to schedule and mapping</p> <p>Notes: Requiring Authority transferred from FNDC under section 180 on 1 September 2017</p>
Conditions applying to NZTA -2: Council reference 22000423 RMADES (intersection of State Highway 10 and Whangaroa Road, Kaeo)	

General Conditions

1. Works authorised by the designation shall be in general accordance with the Notice of Requirement lodged by Waka Kotahi NZ Transport Agency dated January 2020, and more particularly the plans entitled 'Northland Bridges Kaeo' dated 17 December 2019 contained in Appendix B of the application, subject to the conditions herein.

2. As soon as reasonably practicable following completion of the Construction Works, notice from the Requiring Authority shall be given to the Council in accordance with section 182 of the Resource Management Act 1991 (the Act) for the removal of those parts of the designation that are not required for the long-term operation, maintenance or mitigation effects of the Project.

Construction Noise and Vibration

3. Construction noise shall as far as practicable comply with the following criteria when assessed in accordance with New Zealand Standard NZS 6803: 1999 "Acoustics - Construction Noise":

Time of week	Time period	Duration of work	
	Long term duration (dBA)		
		Leq	Lmax
weekdays	0630-0730	55	75
	0730-1800	70	85
	1800-2000	65	80
	2000-0630	45	75
saturdays	0630-0730	45	75
	0730-1800	70	85
	1800-2000	45	75
	2000-0630	45	75
sundays and public holidays	0630-0730	45	75
	0730-1800	55	85
	1800-2000	45	75
	2000-0630	45	75

Where the above noise criteria cannot be met, a Construction Noise and Vibration Management Plan shall be prepared and implemented as set out in Condition 7 below.

4. Construction vibration shall comply with the following criteria when measured and assessed in accordance with DIN 4150-3:1999 "Structural Vibration - Effects of Vibration on Structures.

Receiver	Location	Details	Category A	Category B
Dwellings	Inside the building	Night time (2000 to 0630 hrs) Daytime (0630 to 2000 hrs)	0.3mm/s PPV 1mm/s PPV	1mm/s PPV 5MM/s PPV

If a suitably qualified expert advises that the measured or predicted vibration levels could exceed the Category A criteria then the noise management plan in Construction Noise and Vibration Management Plan as per Condition 8 below shall be used to manage construction vibration to comply with the Category A criteria as far as practicable.

Where there is any risk that construction vibration could exceed the Category B daytime criteria, construction activity shall only proceed after a building condition survey has been undertaken and if effects on those buildings have been assessed by suitably qualified experts and found to be avoidable.

Management Plans

5. A minimum of 10 working days prior to the commencement of any construction works (including any site preparation and earthworks), the Requiring Authority shall submit to the Council plans covering Landscape and Cultural Design (required by Condition 7), Construction Traffic (required by Condition 9) and Ecological Mitigation (required by Condition 10). A Construction Noise and Vibration (required by Condition 8) will only be necessary if required under Conditions 3 and/or 4 above.

On receipt of the plans, the Council shall certify (or otherwise) that the Plans are in accordance with the conditions below in respect of each Plan. The Council shall do so within 10 working days of the Plans being submitted. If formal advice confirming certification (or otherwise) is not received from the Council within 10 working days, the Requiring Authority may proceed on the basis that certification has been given.

6. On certification of these plans, the Requiring Authority shall comply with and implement the Plans in all respects. Landscape and Cultural Design Framework

7. A Landscape and Cultural Design Framework document shall be submitted in accordance with Condition 5. This document shall include information about the landscape decisions made in collaboration with mana whenua and will include a detailed concept plan and planting specifications in accordance with the Waka Kotahi NZ Transport Agency P39 — Standard Specification for Highway Landscape Treatments.

Construction Noise and Vibration Management Plan (CNVMP)

8. Where deemed necessary under Conditions 3 and/or 4 above, a Construction Noise and Vibration Management Plan (CNVMP) shall be prepared by a suitably qualified and experienced person and submitted to Council in accordance with Condition 5. The purpose of the CNVMP shall be to identify the best practicable option for management and mitigation of all construction noise and vibration, including where full compliance with the criteria in Conditions 3 and/or 4 cannot be achieved. Where the compliance cannot be achieved for specific activities, the noise management plan shall set out the required noise mitigation measures that are specific to those activities in order to reduce noise levels and effects as far as practicable.

The CNVMP shall include the information required by NZS 6803:1999 'Acoustics — Construction Noise', Annex E2 and the Waka Kotahi NZ Transport Agency's State Highway Construction and Maintenance Noise and Vibration Guide (August 2019). The term 'noise' in that document shall be interpreted as 'noise and vibration'.

Construction Traffic Management Plan (CTMP)

9. A CTMP shall be prepared by a suitably qualified and experienced person and submitted to the Council in accordance with Condition 5. The purpose of the CTMP is to avoid or mitigate adverse effects on traffic safety and efficiency resulting from the construction works, in order to:

- (a) Protect public safety, including the safe passage of pedestrians and cyclists;
- (b) Minimise delays to road users, pedestrians and cyclists, and
- (c) Inform the public about any potential impacts on the road network.

The CTMP shall describe the methods for avoiding, remedying or mitigating the local and network wide transportation effects resulting from the Project works, and shall address the following matters:

- (a) Methods to avoid, remedy or mitigate the local and network wide effects of the construction of individual elements of the Project and the use of staging to allow sections of the Project to be opened to traffic while other sections are still under construction;
- (b) Methods to manage the effects of the delivery of construction material, plant and machinery (including oversized trucks);
- (c) The numbers, frequencies, routes and timing of construction traffic movements;
- (d) Traffic management measures to address and maintain traffic capacity and minimise adverse effects;

(e) The methodology for ensuring the continued access to all properties affected by the construction process for both vehicles and pedestrians.

Ecological Management Plan (EMP)

10. An EMP shall be prepared by a suitably qualified and experienced person and submitted to Council in accordance with Condition 5. The EMP is to be prepared in general accordance with the Assessment of Ecological Values report prepared by Bioresearches Limited dated December 2019 and shall include specific details addressing the main aspects of the avoidance and mitigation package defined in the Bioresearches report as follow:

- a. Timing of access and clearance of riparian areas to avoid effects on nesting habitat for fernbirds
- b. Details (including plans) detailing the re-instatement, enhancement and expansion of riparian vegetation for fernbird habitat
- c. Specific measures to identify the existence of bittern and banded rail in the vicinity of the site, and any mitigation or avoidance measures required should it be confirmed they inhabit the area.
- d. Provision of a Native Lizard Management Plan
- e. Location, species, and number of ecosourced native coastal planting in areas between the State Highway 10 formation and Kaeo River.
- f. A plan clearly identifying those existing vegetated areas and /or individual trees that are to be avoided and the means of physically delineating these areas on the site
- g. Means of controlling weed and pests during and on completion of construction works.

Note:

- The technical review of the ecological report provided in support of the application indicates that bittern and banded rail are known to inhabit the area and therefore should part of the EMP.
- It is noted that several plant species identified in the ecological report may not be appropriate and local eco-sourced alternatives are available.

Completion of Works

11. For the purposes of confirming that works have been carried out in accordance with Condition 10 above, the Requiring Authority shall provide to Council's Team Leader (Compliance) within 3 months of the completion date of the works ('completion date' being the date at which all physical works required for the commissioning of the State Highway within the designation is completed), a written statement or statements from a suitably qualified and experienced person/s that confirm that the requirements contained in the Ecological Management Plan has been completed in accordance with the referenced document and plans.

RADIO NEW ZEALAND LIMITED (RNZ)

Overview

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.

Designations

Spains Road, Awanui	
Designation unique identifier	RNZ 120
Designation purpose	Radiocommunication, telecommunication and ancillary purposes and land uses
Site identifier	CT 2070/44, Pt Lot 4 DP43276, Pt Maxwells Grant, 5.26ha <u>NA2070/44</u>
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	Yes
Additional information	Rollover designation with minor updates to the schedule
SH 12, Ohaeawai	
Designation unique identifier	RNZ 142
Designation purpose	Radiocommunication, telecommunication and ancillary purposes and land uses
Site identifier	CT 2081/9, Pt Te Riu Blk 5.3034ha <u>NA2081/9</u>
Lapse date	Given effect
Designation hierarchy under section 177 of the RMA	Primary
Conditions	Yes
Additional information	Rollover designation with minor updates to the schedule

The designations shall be subject to the following conditions:

- a. Exposures to radiofrequency fields shall comply with *NZS 2772.1:1999 - Radiofrequency Fields Part 1: Maximum Exposure Levels: 3 kHz – 300 GHz* “the New Zealand Standard”.
- b. Except as provided for in condition (c), prior to commencing any new transmission (including a transmission from an existing facility at a different frequency), or increasing the power of existing transmissions, the following shall be sent to and received by the Council (where any works are involved, this could be incorporated within the outline plan of works):
 - i. written notice of the location of the facility or proposed facility and
 - ii. a report prepared by a radio technician/engineer or physical scientist containing a prediction of whether the New Zealand Standard will be complied with.

If the report provided to the Council under condition (b) predicts that the emissions as measured at the nearest property boundary will exceed 25% of the exposure limit set for the general public in the New Zealand Standard, then, within three months of the date of commencement or increase in radiofrequency emissions commencing, a report from National Radiation Laboratory, or an appropriately qualified independent person/organisation, certifying compliance with the New Zealand Standard, based on measurements at the site, will be provided to the Council.

The requiring authority shall be under no obligation to supply the information specified in Condition b. where any change in frequency and/or power of any existing transmission(s) results from repair or maintenance activities

SPARK NZ LIMITED (SPK)

Overview

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.

Tree or Trees	Plan references (<i>Planning Maps and APP2 - Schedule of notable trees</i>)
<i>Stenocarpus</i> (Illawara Flame)	#69; Map 87

- a. The following works may be carried out on the scheduled tree without an outline plan of works:
 - i. trimming and maintenance, and the felling of the scheduled tree if it has died, provided that such work is undertaken by or under the supervision of a member of the New Zealand Arboricultural Association who has advised the Council in advance of the work to be carried out.
 - ii. felling or limbing of the scheduled tree where such work is required as emergency work to safeguard life or habitable buildings from immediate danger or maintain or restore networks for energy, telecommunications and transport, provided that such work shall be carried out to the minimum required to protect human life, habitable buildings or the networks.
 - iii. planting and weeding of garden plants within the area covered by the crown periphery (dripline) of the tree.
- b. The following works may be carried out in accordance with an approved outline of works, where that outline plan of works has included an appropriate assessment of the works, including the need for the works and the likely long-term effects on the tree or trees involved:

- i. the limbing of any tree, other than for the emergency purposes described in (a) above;
- ii. the excavation, filling and provision of impermeable surfaces (including buildings) within the area covered by the crown periphery (dripline) of the tree, and
- iii. any other works which have the potential to adversely affect the specified tree shall not be carried out unless and until the terms of the designation are altered to specifically provide for such works.

TOP ENERGY (TE)

Overview

A designation is a mechanism used by Ministers of the Crown, network utility operators and local authorities approved as requiring authorities under the RMA to get planning authorisation for public works and protected land for future public works. Requiring authorities can only make a designation where they are financially responsible for the project, work or operation on the designated land. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent, unless works will be undertaken that are outside the scope of the designation.

CONDITIONS APPLYING TO TE243

1. The subject site is within close proximity to a conservation reserve administered by the Department of Conservation. The reserve is considered to be a kiwi habitat. As such Top Energy Limited staff and contractors shall not bring dogs to the designated site.
2. An Outline Plan is not required to be submitted to Council, subject to the activity being in accordance with the plans submitted with the Notice of Requirement (refer RC-2100406-RMADES).

CONDITIONS APPLYING TO TE244

Hazardous Substances

13. The substation shall be operated in accordance with the Top Energy procedure for "oil handling" (Procedure No CS E01 dated February 1996) and subsequent amendments.

Electronic and Magnetic Fields

14. Exposures to extremely low frequency electric and magnetic fields at the boundary of the site and at all publicly accessible areas within the site, shall comply with the guidelines recommended by the International Commission on Non-Ionising Radiation Protection in 1998.

CONDITIONS APPLYING TO TE 245

1. Where the designated area's external boundaries adjoin land zoned for residential or rural living purposes (and not designated for other purposes):
 - i. the maximum building height of any new substation structures shall not exceed 2m plus the shortest horizontal distance to the affected boundary;
 - ii. provision shall be made for landscaping, fences, walls or a combination to at least 1.8m in height along the length of the affected boundary. Where landscaping is provided, it shall be for a minimum depth of 2m.

CONDITIONS APPLYING TO TE247

11. The existing landscaping shall be maintained for the duration of the activity in accordance with Resource Consent 2130173.

CONDITIONS APPLYING TO TE248

1. The landscape Planting approved as part of RC 2160418-RMACOM shall be maintained for the duration of the activity.
2. The substation shall be operated in accordance with the powerCo standard for Mineral Insulating Oil Maintenance 393S067 dated December 2011 and subsequent amendments.
3. Exposures to extremely low frequency electric and magnetic fields at the boundary of the site and at all publically accessible areas within the site shall comply with the guideline recommended by the International Commission of Non-Ionising radiation Protection in 1998.

CONDITIONS APPLYING TO TE249

1. The works to give effect to the designation of the Oruru Road Substation shall be generally in accordance with the information submitted by Top Energy Ltd in support of the Notice of Requirement.
2. The works to give effect to the designation of the Oruru Road substation shall be generally in accordance with the information by Top Energy Ltd in support of the Notice of Requirement.
3. The Requiring Authority shall install a stormwater retention/detention pond in general accordance with the report title "Engineering Report for the Proposed Substation" prepared by Haigh Workman Ltd, dated 13th February 2015.
4. Prior to the operation of the substation, provide certification form a chartered professional engineer that the stormwater retention/detention pond has been installed in accordance with condition 3.
5. The site is located within a 'kiwi present' area. Any dogs brought onto the site must be effectively controlled (i.e. secured or tied up) at all times.
6. The landscaping of the site shall be carried out in general accordance with the approved Landscape Plan and Plant Schedule/ Planting Method / Maintenance Schedule prepared by Hawthorn Landscape Architects. The landscaping specified must be implemented within six months of the issue of a Code of Compliance Certificate for the building (s), or within six months of its use (whichever comes first), and adequately maintained thereafter. Plants requiring removal due to damage, disease or other cause shall be replaced with a similar specimen before the end of the next planting season (1st May to 30th September).
7. The Requiring authority shall provide a post construction assessment and report on the noise generated by the substation. The assessment shall be undertaken by a suitably qualified acoustic engineer and demonstrate that the substation operation complies with the relevant permitted activity thresholds of the Far North District Plan.
8. The substation shall be operated in accordance with the PowerCo Standard for Mineral Insulating Oil Maintenance 393SO67, dated Dec 2011, and subsequent amendments.
9. Exposures to extremely low frequency electric and magnetic fields at the boundary of the site and at all publicly accessible areas within the site, shall comply with the guidelines recommended by the International Commission of Non-Ionising Radiation Protection in 1998.
10. All lighting shall, as far as practicable, be directed away from Oruru Road to prevent any glare towards traffic.
11. Any signage erected at the site shall comply with the signage provision of the Far North District Plan.
